## Independent Auditor's Report

Members of the Board of Directors  
The Harrisburg Authority

We have audited the accompanying financial statements of The Harrisburg Authority (Authority), a component unit of the City of Harrisburg, Pennsylvania, as of and for the year ended December 31, 2010, as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of December 31, 2010, and the changes in its financial position and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Authority incurred significant financings in December 2003 and, again, in December 2007, to fund the costs of the modernization project related to the Authority's Resource Recovery Facility. Additionally, the Resource Recovery Segment has experienced significant operating losses, has an accumulated deficit of approximately \$173 million at December 31, 2010, and is in violation of certain covenants under its trust indentures. Additionally, as discussed further in Note 12 to the financial statements, the Authority has issued multiple notices of material events, including, but not limited to, non-payment of required debt service with respect to certain of the Resource Recovery Facility bonds.

The Water Segment has an accumulated deficit of approximately \$37 million at December 31, 2010, and is in violation of certain covenants under its trust indentures. Additionally, as discussed further in Note 12 to the financial statements, the Authority has issued multiple notices of material events with respect to certain of the Water System bonds.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate

operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming an opinion on the Authority's financial statements taken as a whole. The combining schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The combining schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Harrisburg Sewerage Authority (Sewerage Authority) was incorporated June 3, 1957, under the provisions of the Municipality Authorities Act of 1945. On December 1, 1987, the Sewerage Authority's Articles of Incorporation were amended to change its name to the Harrisburg Water and Sewer Authority (Water Authority). On January 30, 1990, the Water Authority filed Articles of Amendment with the Pennsylvania Department of State to change its name to The Harrisburg Authority (Authority), also broadening its purpose and extending the term of its existence. The purpose of the Authority is, among other things, to engage in public works projects relating to the ownership and operation of the water system and resource recovery facility and the leasing of the wastewater treatment and conveyance systems. The Authority also issues nonrecourse tax-exempt debt for other entities for the purpose of financing capital improvement projects.

The Authority is a component unit of the City of Harrisburg (City) reporting entity. Criteria considered in making this determination include appointment of the Authority's Board of Directors (Board), financial interdependence, and the Authority's potential to provide specific financial benefits to, or impose specific financial burdens on the City.

#### Basis of Presentation

All activities of the Authority are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for activities similar to those found in the private sector where the determination of net income is necessary for sound financial administration. Costs of construction, debt reduction, and Authority administration are financed or recovered through lease rentals received from the City, user charges, administration charges, and income on investments held by the Authority.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Authority are charges for water and incinerator services and administrative fees for conduit debt issuance. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### Basis of Accounting

The Authority's financial statements are presented using the accrual method of accounting, under which revenues are recorded in the period that they are earned and expenses are recorded when the liability is incurred. The Authority follows the accounting and financial

---

reporting standards issued by the Governmental Accounting Standards Board (GASB). Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in the financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their financial statements, subject to this same limitation. The Authority has elected not to follow subsequent private-sector guidance.

The accounting and financial reporting treatment applied to the Authority is determined by its measurement focus. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the balance sheet. Net assets (i.e., total assets net of total liabilities) are segregated into “Invested in capital assets, net of related debt;” “Restricted for” various purposes; and “Unrestricted” components.

### Non-recourse Debt Issues

The Authority participates in various bond issues for which it has limited liability. Acting solely in an agency capacity, the Authority serves as a financing conduit, bringing the ultimate borrower and the ultimate lender together to do business. Although the Authority is a party to the trust indentures with the Trustees, the agreements are structured such that there is no recourse against the Authority in the case of default. As such, the corresponding debt is not reported in the Authority’s balance sheet, but is disclosed in Note 9.

### Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Authority considers all highly liquid instruments with original maturities of three months or less to be cash equivalents.

### Investments

The Authority accounts for investments at fair value. The fair value of the Authority’s investments is based upon values provided by external investment managers and quoted market prices.

### Restricted Assets

Certain proceeds of revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable trust indentures or other agreements.

YEAR ENDED DECEMBER 31, 2010

### Capital Assets

Capital assets in service and construction in progress are carried at cost, if purchased or constructed. Assets acquired through contributions from developers or other customers are capitalized at their estimated fair value, if available, or at engineers' estimated fair value or cost to construct at the date of the contribution. Utility systems acquired from other governmental service providers are recorded at the purchase price, limited to fair value. Costs of studies that directly result in specific projects are capitalized. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Maintenance and repairs, which do not significantly extend the value or life of property, plant, and equipment, are expensed as incurred.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the asset constructed.

Depreciation expense for the Water Segment assets acquired prior to 1992 and for Resource Recovery Segment assets acquired prior to 1997 are calculated using a 2% annual rate. For acquisitions subsequent to these dates, capital assets are depreciated using the straight-line method, over the estimated useful lives, as follows:

Land improvements	25 years
Water mains and related accessories	75 years
Water meter equipment	25 years
Buildings (including Resource Recovery Facility)	50 years
Office equipment	5-15 years
Office furnishings	15 years
Operating equipment	10-50 years
Vehicles	7 years

### Advances to the City of Harrisburg

Advances to the City represent construction in progress for sewer system improvements.

### Amount Due to the City of Harrisburg

As further discussed in Note 12, during the years ended December 31, 2009 and 2010, the City, bond insurer, and County were required to make certain debt service payments on

behalf of the Authority under various guarantee/insurance agreements. These amounts are presented as due to the City on the balance sheet at December 31, 2010. In addition, the amounts due to the various entities include accrued interest at various interest rates, dependent upon the applicable agreement.

### Deferred Costs

Financing costs and discounts/premiums are deferred and are being amortized over the respective life of each bond issue using the effective interest rate method. Losses on debt refundings (including swap termination fees) are deferred and are being amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. On the balance sheet, the unamortized financing costs are reported as a deferred charge (asset) and the unamortized discounts/premiums and deferred losses on refundings are reported as a reduction from the outstanding bonds.

### Deferred Revenue

Deferred revenue, consisting of monies received from debt service forward delivery agreements, is being amortized to interest income over the respective life of each of the agreements using a method that approximates the interest rate method. The balance of deferred revenue relates to management and operating rights as discussed in Note 5.

### Net Assets

Net assets comprise the various net earnings from operating and non-operating revenues, expenses, and contributions of capital. Net assets are classified in the following three components: Invested in capital assets, net of related debt; restricted for various purposes; and unrestricted net assets. Invested in capital assets, net of related debt, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction, and improvement of those assets. Debt related to unspent proceeds or other restricted cash and investments is excluded from the determination. Restricted for various purposes consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates, less any related liabilities. Unrestricted consists of all other net assets not included in the above categories.

### Restricted Resources

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

YEAR ENDED DECEMBER 31, 2010

### Use of Estimates

Management of the Authority has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent liabilities to prepare the financial statements in conformity with accounting principles generally accepted in the United States of America. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Adoption of GASB Pronouncements

Effective January 1, 2010, the Authority adopted GASB Statement No. 51, *“Accounting and Financial Reporting for Intangible Assets.”* This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. During the year ended December 31, 2005, the Authority purchased a nonexclusive license for the use of the combustion technology, which was to be installed in the Resource Recovery Facility. The transaction, more fully described in Note 7, resulted in the purchase of an intangible asset and a capital lease. However, the license was considered impaired at December 31, 2009 and is deemed to have no value, as the technology underlying the license is not being used. The capital lease related to the license has been recorded at the outstanding balance as of December 31, 2009 of \$15 million plus accrued interest through December 31, 2009 of \$1,488,575.

Effective January 1, 2010, the Authority adopted GASB Statement No. 53, *“Accounting and Financial Reporting for Derivative Instruments.”* This Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. The Statement specifically requires governments to measure most derivative instruments at fair value in their financial statements. The standard requires that accounting changes to conform with the provisions of this Statement be applied retroactively. At December 31, 2009, the fair value of the Authority’s derivative transactions were derivative assets of \$6,857,126 and derivative liabilities of \$7,829,070, resulting in a net decrease in beginning net assets of \$971,944.

Beginning net assets as of December 31, 2009 were restated to comply with the provisions of these statements as follows:

Net assets, December 31, 2009, as originally reported	\$ (168,684,953)
Restatement for GASB 51	(16,488,575)
Restatement for GASB 53	<u>(971,944)</u>
Net assets, December 31, 2009, as restated	<u><u>\$ (186,145,472)</u></u>

### Pending GASB Pronouncements

In November 2010, GASB issued Statement No. 60, “*Accounting and Financial Reporting for Service Concession Arrangements.*” This Statement improves financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. As used in this Statement, an SCA is an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. The provisions of this Statement are effective for the Authority’s December 31, 2012 financial statements.

In June 2011, GASB issued Statement No. 63, “*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.*” Statement No. 63 provides guidance on reporting deferred inflows and outflows of resources, which are distinctly different from assets and liabilities. As a result of reporting these additional elements, the residual balances will be considered as net position, rather than net assets. The provisions of this Statement are effective for the Authority’s December 31, 2012 financial statements.

In June 2011, GASB issued Statement No. 64, “*Derivative Instruments: Application of Hedge Accounting Termination Provisions – an Amendment of GASB Statement No. 53.*” Statement No. 64 clarifies whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty’s credit support provider. The provisions of this Statement are effective for the Authority’s December 31, 2012 financial statements.

In March 2012, GASB issued Statement No. 65, “*Items Previously Reported as Assets and Liabilities.*” Statement No. 65 clarifies the appropriate reporting of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. The provisions of this Statement are effective for the Authority’s December 31, 2013 financial statements.

The effect of implementation of these Statements has not yet been determined.

## **2. DEPOSITS AND INVESTMENTS**

### Deposits

Pennsylvania Act 72 provides for investment of public funds in certain authorized investment types including U.S. Treasury bills; other short-term obligations of the U.S. and federal

agencies; general obligation bonds of the federal government, the Commonwealth of Pennsylvania or any state agency; insured or collateralized time deposits; and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of public funds for investment purposes.

The deposit and investment policy of the Authority adheres to state statutes, prudent business practices, and the applicable trust indentures, which are more restrictive than existing state statutes. Deposits are maintained in demand deposits and certificates of deposit.

The deposits of the Authority at December 31, 2010 were as follows:

Cash and cash equivalents	
Unrestricted	\$ 10,919,831
Restricted under trust indentures and guarantee agreement	<u>6,492,127</u>
	<u>\$ 17,411,958</u>

*Custodial Credit Risk* – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk. As of December 31, 2010, the Authority's book balance was \$17,411,958 and the bank balance was \$17,478,285. Of the bank balance, \$515,958 was covered by federal depository insurance and \$16,962,327 was collateralized under Act No. 72 of the 1971 Session of the Pennsylvania General Assembly (Act), in which financial institutions were granted the authority to secure deposits of public bodies by pledging a pool of assets, as defined in the Act, to cover all public funds deposited in excess of federal depository insurance limits.

### Investments

The restricted investments of the Authority at December 31, 2010 were as follows:

Money market funds	\$ 28,981,870
U.S. Government agency obligations	8,613,757
U.S. Government obligations	423,521
Municipal bonds	6,591,446
Commercial paper	<u>3,375,496</u>
Total	<u>\$ 47,986,090</u>

*Custodial Credit Risk* – Custodial credit risk is the risk that the counterparty to an investment transaction will fail and the government will not recover the value of the investment or collateral securities that are in possession of an outside party. The Authority does not have a formal investment policy for custodial credit risk. All of the Authority’s investments are held by the counterparty’s trust department or agent not in the Authority’s name.

*Concentration of Credit Risk* - The Authority places no limit on the amount the Authority may invest in any one issuer. More than five percent of the Authority’s investments are held as follows:

	<u>Fair Value</u>	<u>% of Total</u>
Federal National Mortgage Association	\$ 6,361,811	13.26%
General Obligation Pension Bonds - Illinois State	4,713,471	9.82%
FCAR Owner Trust Discount C/P	3,375,496	7.03%

*Credit Risk* –The Authority does not have a formal policy that would limit its investment choices with regard to credit risk. The Authority’s money market funds and fixed income investments had the following level of exposure to credit risk as of December 31, 2010:

	<u>Fair Value</u>	<u>Rating</u>
Money market funds	\$ 28,981,870	AAA
U.S. Government agency obligations	7,486,780	AAA

### 4. LEASES

At December 31, 2010, the Authority, through its Sewer Fund, is the lessor or sublessor in three separate direct financing leases with the City. The leases relate to the wastewater treatment, conveyance, and collection systems. Generally, two of the leases provide for rentals to be 110% of debt service requirements, with additional rentals to fund Authority administrative expenses. The third lease provides for rentals to be 100% of debt service requirements.

The following table shows the future minimum rentals to be received under direct financing leases at December 31, 2010:

	Basic Lease Rental	Authority Administrative Fee	Total
2011	\$ 1,915,776	\$ 250,000	\$ 2,165,776
2012	74,773		
2013	74,773		
2014	74,773		
2015	83,546		
2016 - 2020	417,730		
2021 - 2025	417,730		
2026 - 2030	417,730		
	<u>3,476,831</u>		
Less unearned income:	<u>(431,562)</u>		
Present value of net minimum lease payments	<u>\$ 3,045,269</u>		

During the year ended December 31, 2010, the Authority received basic lease rentals of \$1,755,768 from the City. The Authority used funds available in the Sewer Fund's excess earnings fund account, in the amount of \$105,614, to reduce the amount receivable from the City. Together these amounts represent interest income of \$251,087 and a reduction of the lease rental receivable of \$1,610,295. The Authority also received \$330,000 in administrative fees from the City during the year ended December 31, 2010, \$80,000 of which was due from the year ended December 31, 2009.

### 5. DEFERRED REVENUE

#### Development and Service Agreement

During October 2000, the Authority was designated as the developer of certain parking facilities located at the National Civil War Museum. In order to fulfill the requirements as designated developer, the Authority entered into an agreement with the Harrisburg Parking Authority. Under this agreement, the Harrisburg Parking Authority is to act as the sole and exclusive manager and operator of such parking facilities, including management and oversight of the day-to-day operations of the parking facility through October 2024. In consideration for its appointment and designation as manager and operator of the parking facilities, the Harrisburg Parking Authority agreed to pay \$2,850,000 to the Authority. Revenue from this agreement is being recognized by the Authority ratably over the life of the agreement. Deferred revenue was \$1,632,812 as of December 31, 2010.

#### Debt Service Forward Delivery and Swap Agreements

The Authority has entered into six derivative product agreements, which consist of debt service forward delivery agreements with a financial intermediary that result in a forward swap of interest earned on amounts placed in the debt service sinking fund and swap agreements. In exchange for cash payments to the Authority at the inception of the agreements totaling approximately \$5,013,198 at December 31, 2010, the financial intermediary has the right, under the debt service forward delivery agreement, to invest the funds on hand in the sinking fund and retain the investment earnings. The amounts received were recorded as deferred revenue in the Authority's financial statements because the substance of these agreements effectively is to pay the Authority currently for interest that normally would be earned in later years. The deferred revenue, resulting from these transactions of \$1,949,360 at December 31, 2010, is being amortized over the respective life of each agreement under a method that approximates the interest method.

Development and service agreement	\$ 1,632,812
Debt service forward delivery and swap agreements	<u>1,949,360</u>
Total deferred revenue	<u>\$ 3,582,172</u>

In September 2010, the Authority terminated a debt service forward delivery agreement with JP Morgan Chase Bank, N.A. on the Series A of 1998 Resource Recovery Bonds, which resulted in proceeds to the Authority of \$570,000. These proceeds, in addition to the balance remaining with respect to the related deferred revenue of \$72,344, are included in investment income.

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

The Authority is still a party to several debt service forward delivery agreements with Lehman Brothers Special Financing, Inc. (Lehman Special Financing) in connection with certain bonds or notes relating to the Authority's Water System and the Authority's Resource Recovery Facility. In the fall of 2008, Lehman Special Financing filed for bankruptcy protection under the U. S. Bankruptcy Code. As of the date hereof, neither the Authority nor Lehman Special Financing has terminated the outstanding debt service forward delivery agreements, with the exception of the agreement on the Series A-1 of 1994 Water Bonds, which was terminated on March 31, 2011 and resulted in the Authority paying \$173,300 to Lehman Special Financing.

Because debt service is not being paid by the Authority on certain Resource Recovery Facility obligations, there are limited funds to purchase securities under these agreements. Certain of the Resource Recovery Facility forward debt service delivery agreements give the provider the right, upon default, to terminate such agreements. If the provider determines to terminate the agreement, it must first give notice of such termination in accordance with the agreement. Upon termination, the Authority could owe an amount of money to the provider equal to the termination value which would be calculated in accordance with the agreement. The calculation would yield the present value at the time of termination of the amounts to be earned through the investment of the future remaining deposits. No such notice of termination has been given.

### Variable Rate Issues and Interest Rate Swaps

In connection with its incurrence of long-term indebtedness, the Authority, from time to time, has issued several series of variable rate bonds and notes and entered into related interest rate swap and cap agreements with respect to certain of these variable rate issues. A description of the variable rate issues and, where applicable, the related interest rate swap or swaps, and cap follows.

#### 2003 Water Revenue Bonds, Series A

*Objective of the interest rate swaps* – In August 2006, the Authority entered into two Constant Maturity Swaps with Deutsche Bank AG, New York Branch (Deutsche Bank) to enhance the 2003A interest rate swap agreements (terminated in 2008) with the objective to increase the expected cash flows and effectively lower the overall cost of borrowing of the 2003 Water Revenue Bonds, Series A by converting the tenor of the interest rate on the Societe Generale payment leg of each of the underlying swaps from receiving a short-term rate to a long-term rate. The Constant Maturity Swaps became effective on July 15, 2007 and have been transferred to the 2008 Water Revenue Bonds.

*Terms* – The Constant Maturity Swaps, which the Authority entered into with respect to its 2008 Water Revenue Bonds, consisted of two separate components, a LIBOR-based Constant Maturity Swap with \$25,275,000 of outstanding principal amount of 2008 Water Revenue Bonds as the notional amount (LIBOR CMS) and a SIFMA-based Constant Maturity Swap with \$25,020,000 of outstanding principal amount of 2008 Water Revenue Bonds as the notional amount (SIFMA CMS). Under the LIBOR CMS, the Authority received interest on the corresponding notional amount at a floating rate of 60.15% of the ten-year USD-ISDA-Swap Rate (ten-year LIBOR swap rate) and paid Deutsche Bank a floating rate based on 67% of one-month LIBOR. Under the SIFMA CMS, the Authority received interest on the corresponding notional amount at a floating rate of 85.44% of USSMQ10 (ten-year SIFMA swap rate) and paid Deutsche Bank a floating rate based on the SIMFA Index. The notional amount of each of the LIBOR CMS and SIFMA CMS decreased as the outstanding principal amount of the corresponding 2008 Water Revenue Bonds decreased through mandatory sinking fund redemption. Effective November 17, 2008, both the LIBOR CMS and SIFMA CMS were suspended until January 15, 2011. For executing these suspensions, the Authority received a total of \$1.25 million from Deutsche Bank.

*Termination risk* – The LIBOR CMS and the SIFMA CMS were terminated in March 2010 and the Authority received \$673,200 and \$372,200, respectively. As of December 31, 2009, it would have cost Deutsche Bank, the Counterparty, \$804,762 and \$400,572 to terminate the LIBOR CMS and the SIFMA CMS, respectively. Changes in fair value, through the termination date, of (\$131,562) and (\$28,372) are recorded as a component of investment income on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

### Series of 2004, Water Revenue Refunding Bonds

*Objective of the interest rate swaps* In August 2004, the Authority issued Series of 2004, Water Revenue Refunding Bonds, in the principal amount of \$37,455,000 (2004 Water Revenue Bonds). The Series of 2004 Bonds bear interest at a fixed rates ranging from 1.5% to 5%. In an effort to lower the Authority's net interest cost on the 2004 Water Revenue Bonds, the Authority entered into the 2005 Basis Swap, on the then outstanding bonds, in the notional amount of \$37,360,000.

In August 2006, the Authority amended the 2005 Basis Swap with Bank of America (formerly Merrill Lynch) with the objective to enhance the 2005 Basis Swap by increasing the expected cash flows on the Basis Swap and effectively lowering the overall cost of borrowing of the 2004 Water Revenue Refunding Bonds. The amendment coverts the tenor of the interest rate on Bank of America's payment leg of the Basis Swap from a short-term rate to a long-term rate.

*Terms* – Under the 2005 Basis Swap, the Authority periodically paid an amount to Bank of America equal to interest on an amount corresponding to the then outstanding aggregate principal amount of the 2004 Water Revenue Bonds computed on the basis of the then applicable SIFMA Municipal Swap Index (SIFMA Index) and Bank of America periodically paid an amount to the Authority equal to interest on the Notional Amount computed on the basis of 50 basis points plus 67% of the monthly LIBOR Index. The notional amount of the 2005 Basis Swap decreased as the outstanding principal amount of the corresponding 2004 Water Revenue Bonds decreased through maturing principal.

The 2006 amendment converted the Authority's receipt rate from 67% of one-month LIBOR plus a spread of 50 basis points to 69% of the five-year USD-ISDA-Swap Rate (five-year LIBOR Swap Rate). The amendment became effective on July 15, 2007.

*Termination risk* – The 2005 Basis Swap was terminated in February 2010 and the Authority received \$1,101,045. As of December 31, 2009, it would have cost Bank of America \$1,646,588 to terminate the 2005 Basis Swap, as amended, with the Authority. Changes in fair value, through the termination date, of (\$545,543) are recorded as a component of investment income on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

### 2003 Guaranteed Resource Recovery Revenue Bonds, Series D1 and D2

*Objective of the interest rate swaps* – The Authority's asset/liability strategy is to have a combination of fixed and variable-rate debt. On December 30, 2003, the Authority issued its \$96,480,000 Guaranteed Resource Recovery Facility Revenue Bonds, Series D of 2003 (2003 Resource Recovery Bonds, Series D) consisting of \$31,480,000 Subseries D-1 (2003

D-1 Bonds) and \$65,000,000 Subseries D-2 (2003 D-2 Bonds). The 2003 D-1 Bonds initially bore interest at a fixed rate of 4.00% to December 1, 2008, and the 2003 D-2 Bonds at a 5.00% fixed rate to December 1, 2013. After the expiration of these respective initial rate periods, the 2003 D-1 and D-2 Bonds are subject to conversion to different interest rates for different interest rate periods. On December 1, 2008, the Authority remarketed and converted \$31,280,000 Guaranteed Resource Recovery Facility Revenue Bonds, Subseries D-1 of 2003, to a long-term rate period of December 1, 2008 to December 1, 2010 with a coupon rate of 6.75%. On December 1, 2010, the Subseries D-1 of 2003 Bonds were remarketed to a fixed rate of 5.25% through December 1, 2013. To convert the interest rate on the 2003 D-1 and 2003 D-2 Bonds to a synthetic variable rate at the time of their issuance in 2003, the Authority entered into fixed-to-floating interest rate swaps, thereby achieving a variable rate while eliminating the need for a liquidity facility and annual remarketing services, and avoiding basis risk associated with the weekly remarketing of its variable rate debt, had it issued the 2003 D-1 Bonds and 2003 D-2 Bonds as weekly floating rate bonds.

*Terms* – With respect to its 2003 Resource Recovery Bonds, Series D, the Authority entered into an interest rate swap agreement with Royal Bank of Canada (RBC), which swap agreement consists of two components: (i) a swap with the outstanding principal amount of the 2003 D-1 Bonds to December 1, 2008 as the notional amount (D-1 Swap) and (ii) a swap with the outstanding principal amount of the 2003 D-2 Bonds to December 1, 2013 as the notional amount (D-2 Swap). Under the D-1 Swap, which terminated on December 1, 2008, the Authority paid RBC floating amounts calculated by applying a floating rate per annum determined by reference to the SIFMA Index, and the Authority received fixed amounts calculated by applying a fixed rate of 2.66% per annum on the notional amount under the D-1 Swap. Under the D-2 Swap, scheduled to terminate on December 1, 2013, the Authority pays interest on the notional amount under the D-2 Swap at a floating rate determined by reference to the SIFMA Index, and receives interest on such notional amount at a rate of 3.37% per annum.

The D-1 Swap contained an embedded interest rate cap, providing that the floating rate to be paid by the Authority shall not exceed 12% to June 1, 2006, and shall not exceed 6% from June 1, 2006 to the D-1 Swap termination date of December 1, 2008. The D-2 Swap contains a similar embedded cap, capping at 12% the floating rate to be paid by the Authority to June 1, 2006, and providing a 6% cap from June 1, 2006 to December 1, 2013, the termination date of the D-2 Swap. The Authority also entered into an interest rate cap agreement (D-1/D-2 Cap) with RBC, which was to become effective on December 1, 2008. The D-1/D-2 Cap provided that RBC would pay the excess, if any, between the SIFMA Index and 6% on a notional amount equal to the scheduled principal amount of the D-1 Bonds and the D-2 Bonds outstanding after December 1, 2008 and December 1, 2013, respectively. In May 2004, the Authority and RBC amended the D-1/D-2 Cap to provide for RBC to pay the excess between 68% of LIBOR and 6%, rather than the excess between SIFMA and 6%. The Authority received \$1,106,000 as a result of this amendment.

# THE HARRISBURG AUTHORITY

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

On August 31, 2005, the Authority elected to supplement the D-1 and D-2 Swaps in order to effectively fix the interest rate on its obligations through the final maturity date of the 2003D Bonds scheduled to be outstanding from time to time (initially \$96,480,000). The new agreement (2005 Swap), which the Authority entered into with RBC, with a notional amount equal to the principal amount of the 2003D Bonds, \$96,480,000, consists of a variable to fixed interest rate swap. The 2005 Swap provides, effective June 1, 2006 and continuing until December 1, 2033, for the Authority to pay a fixed rate not exceeding 3.35% and (i) to receive from June 1, 2006 to May 31, 2008 a SIFMA-based variable rate and (ii) to receive from June 1, 2008 to December 1, 2033 a LIBOR-based variable rate equal to 68% of one month LIBOR.

On April 28, 2006, the Authority terminated the portion of the 2005 Swap from June 1, 2011 through December 1, 2033. Under the revised agreement, effective June 1, 2006, the Authority pays a fixed rate not exceeding 3.35% through June 1, 2011 and (i) receives SIFMA-based variable rate through June 1, 2008 and (ii) receives 68% of one-month LIBOR from June 1, 2008 to June 1, 2011. As a result of the partial termination, the Authority received \$4,027,000.

Pursuant to the agreements, the Authority pays to or receives from the counterparty a net swap payment. For the year ended December 31, 2010, the Authority received \$2,021,090 with respect to the D-2 Swap and the embedded D-2 Cap and paid \$3,052,850 with respect to the 2005 Swap. For the year ended December 31, 2010, the Authority paid \$569,232 for the D-1/D-2 Cap, as noted below.

*Fair value* – As of December 31, 2010, it would cost the Counterparty \$4,550,233 to terminate the D-2 Swap and the embedded D-2 Cap and this amount is presented as a derivative asset on the Balance Sheet. The fair values take into consideration the prevailing interest rate environment and the specific terms and conditions of each swap. All fair values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps.

As of December 31, 2010, it would cost the Authority \$4,671,430 to terminate the D-1/D-2 Cap and this amount is presented as a derivative liability on the Balance Sheet. The Authority is obligated to make semi-annual payments of \$284,616 beginning December 1, 2006 to and including December 1, 2033 for a total obligation of \$11,707,282 as payment for the D-1/D-2 Cap. These payments are included as a component of interest expense as paid.

As of December 31, 2010, it would cost the Authority \$1,522,956 to terminate the 2005 Swap and this amount is presented as a derivative liability on the Balance Sheet.

---

# THE HARRISBURG AUTHORITY

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

Changes in fair value for the year ended December 31, 2010 of \$545,029, (\$819,464), and \$2,454,148 for the D-2 Swap and the embedded D-2 Cap, D-1/D-2 Cap, and 2005 Swap, respectively, are recorded as a component of investment income on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

*Credit risk* – As of December 31, 2010, the Authority was not exposed to credit risk on the D-1/D-2 Cap or the 2005 Swap because they both had negative fair values. However, should interest rates change and the fair value of the swaps become positive, the Authority would be exposed to credit risk in the amount of the swap agreement's fair value. The Authority is exposed to credit risk on the D-2 Swap and the embedded D-2 Cap in the amount of the swap agreement's fair value. As of December 31, 2010, RBC was rated Aa1 by Moody's Investors Service and AA- by Standard & Poor's. If RBC's rating falls below A3 by Moody's Investors Service or A- by Standard & Poor's, and if the fair value of the swaps become positive for the Authority, then the Authority may choose to terminate the D-2 Swap and the 2005 Swap to mitigate credit risk.

*Interest rate risk* – The Authority entered into the 2005 Swap and the D-1/D-2 Cap to fix the interest rate as noted above and to limit its exposure to changes in interest rates. However, the D-2 Swap exposes the Authority to interest rate risk, as it is highly sensitive to changes in interest rates and the changes will have a material impact on the valuation of the Swap.

*Subsequent Event* – As of November 13, 2012, it would cost the Counterparty \$3,083,987 to terminate the D-2 Swap and the embedded D-2 Cap. As of November 13, 2012, it would cost the Authority \$5,048,011 to terminate the D-1/D-2 Cap.

RBC was rated AA- (negative outlook) by Standard & Poor's, Aa3 (stable outlook) by Moody's Investor Service, and AA (stable outlook) by Fitch as of November 13, 2012.

### 2003 Guaranteed Resource Recovery Revenue Notes, Series B

During 2007, the Authority entered into a First Amendment and Management and Professional Services Agreement with a waste management facility operator (operator). As part of that agreement, the operator agreed to advance the costs incurred in the retrofit completion up to \$25,500,000. At December 31, 2010, the Authority had drawn down \$20,461,000. This loan constitutes subordinate debt of the Authority pursuant to the provisions of the Authority's various debt indentures. No interest accrues until July 1, 2011, at which time simple interest begins to accrue at the rate of 4% per annum until July 1, 2012 and at a rate of 8% per annum thereafter. Interest is payable beginning October 1, 2011 and continuing thereafter in quarterly installments due and payable on the first day of each calendar quarter. Principal was to be paid beginning on July 1, 2009 in quarterly installments due and payable on the first day of each calendar quarter based on a 10-year, mortgage-style amortization schedule. This loan is guaranteed by the City. Refer to Note 12 for more information.

During the year ended December 31, 2010, the Authority authorized the optional redemption of the 1989 Sewer Revenue Bonds, Series 2 and 3. As such, both Series of Bonds were redeemed on April 1, 2010.

### Defeased Debt

The Authority has, from time to time, defeased certain debt by placing the proceeds of new debt in an irrevocable trust to provide for all future debt service payments on the old debt. The trust account assets and the liability of the defeased debt are not included in the Authority's financial statements. At December 31, 2010, the following defeased debt was outstanding:

Water Revenue Bonds, Series A of 1999	\$ 1,730,000
Seventh Street Office & Parking Revenue Bonds, Series A of 1998	10,870,000
Seventh Street Office & Parking Revenue Bonds, Series B of 1998	6,185,000
Resource Recovery Bonds, Series A of 1998	14,150,000
Resource Recovery Bonds, Series B of 1998	6,555,000
Resource Recovery Bonds, Series C of 1998	2,925,000
Resource Recovery Bonds, Series B of 2000	540,000
Total outstanding defeased debt	<u>\$ 42,955,000</u>

## 7. CAPITAL LEASE

On December 31, 2003, the Authority entered into the Non-Exclusive Technology Sub-Licensing Agreement and Technology Purchase Agreement with the original contractor of the Resource Recovery Retrofit. The original contractor granted the Authority a license to utilize the Combustion Technology at the Facility. The Sub-License Agreement is to continue in effect until the date on which the Combustion Technology is no longer used at the Facility.

To raise the funds necessary to complete the project, the original contractor sold its Technology License to CIT - Newcourt Capital for \$25 million. In turn, the Authority and original contractor entered into a First Amended and Restated Nonexclusive Technology Sublicensing Agreement and Technology Purchase Agreement (Amended Purchase Agreement) granting continued right to the Authority to make full use of the Combustion Technology for all intended purposes under the Equipment Agreement, and for no other purpose; provided, that the Authority may expand or increase the number of units at the Facility without the consent of the Licensor and without payment of any additional fees. This Amended Purchase Agreement has since been assigned to CIT.

Under the sublicense, the Authority will pay to CIT the following fees:

Base Fee - For each calendar quarter ending prior to January 1, 2026, the Authority will pay to Licensor/Seller, on or prior to the first business day of the immediately following calendar quarter (base fee) an amount equal to:

- For calendar quarters ending March 31, 2006 and June 30, 2006, \$500,000;
- For each calendar quarter thereafter prior to the calendar quarter during which the \$25 million is repaid, \$750,000; and
- For each calendar quarter following the calendar quarter during which the \$25 million has been repaid occurs and prior to the calendar quarter in which the Purchase Date occurs, \$.50 per ton of waste processed through each Combustion Unit during the applicable calendar quarter.

Supplemental Fee - For each calendar year ending on or after December 31, 2006 and prior to the repayment of the \$25 million, the Authority will pay to CIT, an amount equal to 95% of the excess revenues (defined as funds available after the payment of facility expenses defined as actual expenses incurred by the Authority in the operation, maintenance and ownership of the Facility: such expenses to include all operating and debt service expenses and mandated governmental fees and costs, and payments required to be made from the revenue fund into the following trust funds: the debt service fund, the debt service reserve fund, the operating reserve fund, the renewal and replacement fund and any other specified funds into which mandatory deposits or transfers are required under the terms of the existing authority indenture documents, but excluding the surplus fund and the redemption fund and disregarding amounts paid into and disbursed out of the purchase and remarketing fund).

During the year ended December 31, 2006, the Authority paid the base fee of \$2.5 million to CIT under the Amended Purchase Agreement. There were no supplemental fees due for the year ended December 31, 2006. There were no payments made under this agreement in 2007, 2008, 2009, or 2010. At December 31, 2010, the Authority's Balance Sheet reflects the remaining balance due under this capital lease in the amount of \$15,000,000, in addition to accrued interest of \$2,704,438.

CIT is asserting that, pursuant to one of the many agreements signed on or about January 11, 2006, the Authority is required to repay this obligation because of the ensuing bankruptcy of Barlow, the original designer and contractor of the Resource Recovery Facility's retrofit project. CIT further argues that the Authority's obligation is an "operating expense" and that it should be given priority in payment ahead of the Authority's debt service obligations. The District Court entered judgment against the Authority in the amount of \$19.3 million as of January 2012. The case is presently on appeal with the Circuit Court of Appeals. The Authority has defended against the claim by asserting that the agreements upon which CIT

was basing its claims are unenforceable and ultra vires acts, and, among other arguments, that there was a lack of consideration for the agreements. The Authority will continue to pursue its position on appeal.

### **8. SEGMENT INFORMATION**

The Authority supports three separate segments. The Water Segment accounts for the provision of basic water service to customers of the Harrisburg Water System. The Sewer Segment accounts for the leasing of the wastewater conveyance and treatment system to the City under a direct financing lease. The Resource Recovery Segment accounts for the activities at the Harrisburg Resource Recovery and Steam Generating Facility (Resource Recovery Facility), which converts waste into energy. Selected segment information as of and for the year ended December 31, 2010 is as follows:

At December 31, 2010, the Authority has net asset deficits in the Water and Resource Recovery segments, primarily due to the Authority not charging enough to cover depreciation expense incurred since acquisition of the Water System and Resource Recovery Facility and not funding amortization of bond discounts, deferred bond issuance costs, and deferred losses on refundings. Management anticipates that the deficits will be reduced in the Water segment through future profitability improvements. Notes 12 and 15 discuss the deficit in the Resource Recovery segment.

**9. NON-RECOURSE DEBT ISSUES**

As discussed in Note 1, the following non-recourse debt issues were outstanding at December 31, 2010:

### *Harrisburg University*

Pursuant to a Trust Indenture dated as of January 1, 2007 (Indenture), the Authority issued its University Revenue Bonds, Series of 2007 (The Harrisburg University of Science and Technology Project) in the aggregate principal amount of \$87,915,000, comprised of its University Revenue Bonds, Series A of 2007 (The Harrisburg University of Science and Technology Project) in the aggregate principal amount of \$27,690,000 (Series A Bonds) and its University Revenue Bonds, Series B of 2007 (The Harrisburg University of Science and Technology Project) in the aggregate principal amount of \$60,225,000 (Series B Bonds, and together with the Harrisburg University Series A Bonds, the Bonds). The Series A Bonds have been paid and are no longer outstanding under the Indenture.

In order to secure the Bonds, the Authority assigned to the Trustee under the Indenture all of its right, title, and interest in and to all funds and accounts established under the Indenture (other than the rebate fund created thereunder) and the pledged revenues, as defined in the Indenture. Further, the performance of the obligations of The Harrisburg University of Science and Technology (University) under a certain Loan Agreement dated as of January 1, 2007 (Loan Agreement) by and between the Authority and the University is secured by a certain Open-End Mortgage and Security Agreement dated as of January 1, 2007 (Mortgage). Capitalized terms not defined herein shall have the meanings ascribed to them in the Indenture and Loan Agreement, as applicable.

The Series B Bonds are also secured by the provisions of a certain credit support agreement (Credit Support Agreement) and a guaranty agreement (Guaranty), whereby the County will undertake for a ten-year period (commencing January 1, 2010 and subject to certain earlier rights of termination) to guarantee payment of a portion of the debt service on the Series B Bonds in the maximum amount of \$1,500,000 each year over such ten-year period, for a total maximum amount of \$15,000,000.

The Series B Bonds were also secured by a certain Standby Letter of Credit issued by Metro Bank, successor to Commerce Bank/Harrisburg, National Association (Letter of Credit Bank), as of January 1, 2007 (Standby Letter of Credit) under and pursuant to a Reimbursement Agreement dated as of January 1, 2007, by and among the Authority, the Harrisburg University and the Letter of Credit Bank (Reimbursement Agreement). The Standby Letter of Credit was initially issued in the amount of \$3,300,000. The Standby Letter of Credit expired as of September 1, 2011. The Standby Letter of Credit has not been replaced.

The Loan Agreement provides that the University is required to make, as Loan Payments, payments which correspond, as to amounts and due dates, to the Bonds Debt Service, at least seventy-five (75) Business Days (or earlier if required by the Indenture) prior to the date when such principal, premium, if any, and interest is due and payable. By written notice

dated December 5, 2011, the Trustee notified the University of its failure to make the required Loan Payment, in anticipation of the Bonds Debt Service payment due on March 1, 2012. The amount due on March 1, 2012 equaled \$1,806,650 (calculated as the amount due of \$1,806,750 minus the amount of \$100 currently on deposit in the Series B Bonds Debt Service Fund of the Indenture).

The Indenture requires that if on the sixty-fifth (65th) Business Day prior to any principal or interest payment date there are not sufficient moneys in the Series B Bonds Debt Service Fund on such date to pay principal of and interest on the Series B Bonds to become due and owing on such date, the Trustee shall immediately notify the County of such shortfall, not less than sixty (60) days prior to such principal or interest payment date pursuant to the terms of the Guaranty, and moneys will be transferred to the Series B Bonds Debt Service Fund from the sources described in the Indenture in an amount which, together with the amount then on deposit in the Series B Bonds Debt Service Fund, will result in the Series B Bonds Debt Service Fund having the balance required to be on deposit therein in order to pay interest and principal to become due and payable on such date. As the Standby Letter of Credit has expired, the first source available to the Trustee to undertake the required transfer is the Guaranty. The Trustee notified the County and the University of such deficiency by letter dated December 6, 2011.

Pursuant to the Loan Agreement, the University's failure to observe and perform a term or condition of the Loan Agreement, including its requirements as stated in the immediately preceding paragraph, for a period of 30 days after notice thereof, or such longer period as the Authority and the Trustee may agree to in writing but in no event longer than one hundred twenty (120) days, would constitute an event of default. By letter agreement dated February 26, 2012, the Trustee and the Authority agreed to extend the thirty (30) day cure period provided in the Loan Agreement by one hundred twenty (120) days, or to April 3, 2012.

Under the Credit Support Agreement, the County is required to transfer to the Trustee not later than three (3) days prior to March 1, 2012, an amount equal to the amount as requested by the Trustee, and in this case, \$1,500,000.

The University was not able to accomplish, in full, the Loan Payment due on March 1, 2012. As a result of such failure, and in order to satisfy the Bonds Debt Service payment due on March 1, 2012, the Trustee has drawn on the Guaranty in the amount of \$1,500,000. The remainder due of \$306,650 was paid from funds of the University.

The draw on the Guaranty does not constitute an event of default under the Indenture, the Loan Agreement, the Guaranty, the Credit Support Agreement, or any of the other finance documents relative to the Bonds.

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

Under the Credit Support Agreement, in the event that any funds paid by the County to the Trustee are not returned to the County by close of business on the third Business Day following the debt service payment date for which such sums were advanced, the University is required to pay to the County interest on such funds, payable on demand and in any event on the date on which such funds are returned to the County, at a default rate of six (6%) percent, subject, however, to such different or additional terms as may be mutually acceptable to the University and the County.

Pursuant to section 4.2 of the Loan Agreement, the University was required to make a Loan Payment to the Trustee, in the amount of \$1,806,750 at least seventy-five (75) Business Days prior to September 1, 2012. The University failed to make that payment. Such failure constitutes an event of default under section 7.1(a) of the Loan Agreement and section 6.1(e) of the Indenture. Through the date of the notice of material event, August 17, 2012, no payments relating to the September 1, 2012 payment have been received from the University.

### **10. DUE TO THE CITY OF HARRISBURG**

The Authority has entered into a management agreement with the City to operate the Authority's Water System. The Water System's management agreement expires in 2020 (subject to annual renewal thereafter). The management agreement requires that the Mayor prepare an operating expenses budget for adoption by the City Council, with final approval by the Authority and the inclusion of such budgeted operating expenses in the Authority's annual budget. The Authority incurred \$9,967,449 in expenses under the Water System management agreements in 2010.

At December 31, 2010, \$2,287,759 is included in the amount due to the City for the Water Segment and \$54,148,812 and \$979,199 is included in the amount due to and due from the City, respectively, for the Resource Recovery Segment. Additionally, the Authority has annually agreed to adopt Water rates sufficient to pay the operating expense budgets as approved as well as administrative and debt service expenses. Finally, the City, County, and bond insurer have paid debt service costs, on behalf of the Authority, for debt related to the Authority's Resource Recovery Facility. Those payments are due back to the City under various reimbursement agreements entered into at the time the debt was issued. Refer to Note 12 for more information.

On behalf of the Authority, the City entered into a capital lease for an energy resource management project and turbine equipment at the water treatment plant as well as various equipment purchases for the water treatment plant and the Resource Recovery Facility. For financial reporting purposes, minimum lease payments have been capitalized. The property acquired through the capital lease has a cost and a net book value of \$886,890 and \$155,357,

Under the Municipal Waste Disposal agreement with the City, the Authority is to pay the City \$1 for every ton of waste, known as the host fee. The Authority, in lieu of paying the host fee, has agreed to allow the City access to certain Resource Recovery Facilities and provision of the related utilities. During the year ended December 31, 2012, the City rescinded the third amendment to the Municipal Waste Disposal agreement. However, the Authority has yet to act upon the rescission.

### **11. LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS**

State and federal laws and regulations require the Authority to properly close and place a final impermeable cover on its Ash Residue Disposal Landfills when they no longer accept waste and to perform certain ongoing maintenance and monitoring activities at the site for up to thirty years after closure. The original estimated total cost of closure and post-closure care costs were \$1,670,206, based on an agreement with the Commonwealth of Pennsylvania pursuant to state regulations and was subject to change with inflation, deflation, technology, or applicable laws and regulations. During 2007, under the original closure and post-closure agreement, the Authority was required by state regulations and its permit to make quarterly payments of \$30,014 to the Consolidated Closure Trust.

On December 31, 2007, the original consolidated trust was terminated and a new account was established. At that time, the Authority estimated the closure and post-closure costs to be \$1,442,617. A variable rate promissory note (Line of Credit) was entered into with a financial institution for \$1,442,617. The Line of Credit supports the Letter of Credit #1805 issued to the Pennsylvania Department of Environmental Protection. On May 5, 2008, this Line of Credit was amended to \$2,355,713 based on a revised closure and post-closure cost estimate.

In an effort to extend the life of the landfill, in April 2008, the Authority began mining the ash to recover ferrous and nonferrous metals contained in the ash residue. Beginning in August 2008, the ash from the processed metal was removed from the landfill and taken offsite. This resulted in reduced ash volume thereby further extending the life of the landfill area. To maintain continued ash disposal operations, a plan was prepared to extend the site life of the landfill until an expansion can be permitted and constructed. It is expected to take four years to complete the permitting and initial construction process. During that four-year period, mining and off-site disposal of processed ash will continue, as well as off-site transportation of ash generated by the facility. During 2009, the Authority received a landfill permit extension for another four years. The capacity will last that long, if the Authority continues to remove ash from the landfill for disposal/beneficial use at another landfill, as fast as it is generated at the Harrisburg landfill.

# THE HARRISBURG AUTHORITY

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

The Authority has accrued \$2,250,413 for landfill closure and post-closure care costs as of December 31, 2010, which represents the use of 95.53% of the estimated capacity of the disposal area. Based on the annual usage at December 31, 2010, the estimated remaining life of the landfill is approximately two years. Under the new closure and post-closure agreement, the Authority is required by state regulations and its permit to make quarterly payments of \$170,000 to the Consolidated Closure Trust. The Authority is in compliance with those requirements at December 31, 2010.

As of December 31, 2010, cash and investments of \$2,903,756 are held for closure and post-closure care expenses. Those funds are reported as restricted assets on the Balance Sheet.

## 12. COMMITMENTS AND CONTINGENCIES

### Resource Recovery Fund

The rate covenant calculation required under applicable trust indentures pertaining to the Resource Recovery Facility financing has not been met for the year ended December 31, 2010. If the facility fails to generate sufficient revenues to pay debt service on the Resource Recovery Facility Revenue Bonds, Series A, D, E, and F of 2003, the Resource Recovery Facility Revenue Notes, Series B and C of 2003, the Resource Recovery Facility Subordinate Variable Rate Revenue Notes, Series A of 2002, or the Resource Recovery Facility Revenue Bonds, Series A of 1998, or ceases revenue generating operations, or if other monies set aside for such purposes are insufficient, the City will be required to pay principal of and interest on such bonds and notes when due pursuant to respective Guaranty Agreements among the City, the Authority, and the respective Trustees for the bonds and notes. The County of Dauphin (County) has provided a secondary guarantee of the Resource Recovery Facility Revenue Bonds, Series D and E of 2003 collectively in the maximum aggregate principal amount not to exceed \$113,000,000 by entering into a County Bond Guaranty Agreement with the Authority and the Trustee for such bonds. The Resource Recovery Segment has incurred substantial accumulated losses, which have caused the Segment to experience cash flow difficulties.

Under the continuing disclosure undertaking, the Authority has covenanted to file its secondary market disclosures within 270 days of the end of their fiscal year. Additionally, the various trust indentures require the Authority to submit its audited financial statements to the Trustee within 180 days. On September 29, 2011 and October 4, 2012, the Authority issued notices of material events with respect to the failure of the Authority to issue financial statements for the years ended December 31, 2010 and 2011, stating that neither were completed by the required dates.

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

Under the trust indentures, the Authority is required to maintain certain minimum balances in the Resource Recovery operating reserve fund. At December 31, 2009, the Authority's balance in the Resource Recovery operating reserve fund was \$220 and the reserve requirement was \$2,993,333. The trust indenture states that if the balance in the Resource Recovery operating reserve fund becomes deficient, the Authority is to restore the balance with twelve substantially equal monthly installments. The Resource Recovery operating reserve was replenished through a transfer from the revenue fund in the amount of approximately \$3 million on July 29, 2010. At December 31, 2010, the Authority maintains the minimum operating reserve fund balance.

Under the trust indentures, the Authority is required to maintain certain minimum balances in the Resource Recovery debt service reserve funds. At December 31, 2010, the Authority's balances in the debt service reserve funds and the related reserve requirements are as follows:

Bond Series	Balance at December 31, 2010	Reserve Requirement
1998	\$ 3,470,166	\$ 3,900,215
2002	-	800,000
2003A - C	1,982,793	7,200,000
2003D	408,434	8,000,000
2003E	270,061	1,000,000
2003F	-	1,000,000

Deficiencies in the Debt Service Reserve Accounts are to be repaid in not more than 12 substantially equal monthly payments on the first day of the month after the occurrence of such deficiency. As of November 2012, the Authority has not replenished the Debt Service Reserve Accounts.

The 2010 Resource Recovery Facility's consulting engineers' report, which was due, per the trust indenture, 90 days prior to the end of the calendar year, was not received by the Authority until December 2010. Finally, management has not instituted a system to calculate the rate covenant requirement noted earlier.

### *1998 Series A, B, and C*

On March 20, 2009, the Authority issued a notice of material event with respect to the Authority's Series A Bonds of 1998. The 1998 Series A, B, and C Debt Service Account did not have sufficient funds to pay the scheduled interest payment of \$280,908 due on the 1998 Series A Bonds on March 1, 2009. ### *Series A Notes of 2002*

On June 22, 2009, the Authority issued a notice of material event with respect to the Authority's Series A Notes of 2002. The 2002 Debt Service Account did not have sufficient funds to pay the scheduled interest payment of \$446,732 due on the 2002 Series A Notes on May 1, 2009. The amount of \$5,749 was on deposit with the Trustee with respect to the 2002 Series A Notes resulting in a deficiency of \$440,983. Pursuant to terms of the trust indenture and the City Note Guaranty, the Trustee notified the Authority and the City of such deficiency in the 2002 Debt Service Account. Accordingly, the City transferred monies to the Trustee to address the deficiency.

On March 8, 2010, the Authority issued a notice of material event with respect to the Authority's Series A Notes of 2002. The 2002 Debt Service Account did not have sufficient funds to pay the scheduled debt service payment of \$1,196,732 due on the 2002 Series A Notes on November 1, 2009. The amount of \$88 was on deposit with the Trustee with respect to the 2002 Series A Notes resulting in a deficiency of \$1,196,644. Pursuant to terms of the trust indenture and the City Note Guaranty, the Trustee notified the Authority and the City of such deficiency in the 2002 Debt Service Account. Under the terms of the City Note Guaranty, the City, as guarantor, was required to fund any deficiency in the 2002 Debt Service Account. The City notified the Trustee that the City was only able to transfer \$396,732, which amount representing a portion of the funds required for the debt service payment due on the 2002 Series A Notes on November 1, 2009. Upon the failure of the City to advance sufficient monies as required under the City Note Guaranty, the Trustee then transferred funds from the 2002 Debt Service Reserve Account of the Debt Service Reserve Fund in the amount of \$799,912 to the 2002 Debt Service Account in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment the 2002 Series A Notes on November 1, 2009.

On May 4, 2010, the Authority issued a notice of material event with respect to the Authority's Series A Notes of 2002. In accordance with the 2002 Indenture, the Trustee then notified the 2002 Bond Insurer of the deficiency of funds on deposit in the 2002 Debt Service Account required to make the May 1, 2012 payment and requested that such shortfall be paid under the bond insurance policy. The 2002 Bond Insurer paid the amount \$378,664 to the Trustee under the bond insurance policy, which amount was sufficient to pay the scheduled debt service payment on May 1, 2012.

On November 5, 2012, the Authority issued a notice of material event with respect to the Authority's Series A Notes of 2002. The 2002 Debt Service Account did not have sufficient funds to pay the scheduled debt service payment of \$1,268,664 due on the 2002 Series A Notes on November 1, 2012. Under the terms of the City Note Guaranty, the City, as guarantor, was required to fund any deficiency in the 2002 Debt Service Account. The City notified the Trustee that the City was not able to provide any funds under the City Note Guaranty in order to make the November 1, 2012 payment. Upon the failure of the City to advance funds as required under the City Note Guaranty, the Trustee was required to transfer any funds on deposit in the 2002 Debt Service Reserve Account of the Debt Service Reserve Fund to the 2002 Debt Service Account of the Debt Service Fund. There were no funds on deposit in the 2002 Debt Service Reserve Account of the Debt Service Reserve Fund resulting in a deficiency in the amount of \$1,268,664. In accordance with the 2002 Indenture, the Trustee then notified the 2002 Bond Insurer of the deficiency of funds on deposit in the 2002 Debt Service Account required to make the November 1, 2012 payment and requested that such shortfall be paid under the bond insurance policy. The 2002 Bond Insurer paid the amount \$1,268,664 to the Trustee under the bond insurance policy, which amount was sufficient to pay the scheduled debt service payment on November 1, 2012.

### *Series A, B, and C Bonds of 2003*

On March 20, 2009, the Authority issued a notice of material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$538,073, and \$607,125 due on the Series A, B, and C of 2003 Bonds, respectively, on March 1, 2009. The amount of \$16,612, \$16,581, and \$16,596 was on deposit with the Trustee with respect to the Series A, B, and C of 2003 Bonds, respectively, resulting in a deficiency of \$630,650, \$521,492, and \$590,529, respectively. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 Debt Service Accounts. Accordingly, the City transferred monies to the Trustee to address the deficiency.

On March 8, 2010, the Authority issued a notice of material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$538,073, and \$607,120 due on the Series A, B, and C of 2003 Bonds, respectively, on September 1, 2009. Pursuant to the terms of the Series 2003 A, B, and C Indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiencies in the Series of 2003 Debt Service Accounts. The Series 2003 A, B, and C Indenture and the City Bond Guaranty provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series 2003 A, B, and C Obligations, then the Trustee is to draw upon the City Bond Guaranty for the monies for debt service. The Trustee so notified the City of the respective deficiencies in the Series of 2003 Debt Service Accounts for the September 1, 2009 debt service payment. However, the City notified the Trustee on August 25, 2009 that the City was not able to transfer funds for the debt service payment due on the Series 2003 A, B, and C Obligations on September 1, 2009. Upon the failure of the City to advance monies as required under the City Bond Guaranty, the Trustee then transferred funds from the 2003 Debt Service Reserve Account of the Debt Service Reserve Fund to the Series of 2003 Debt Service Accounts in amounts sufficient to satisfy the respective deficiencies therein and to enable the Trustee to make the necessary payments of interest on the Series 2003 A, B, and C Obligations on September 1, 2009.

On March 9, 2010, the Authority issued a notice of material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$538,073, and \$607,120 due on the Series A, B, and C of 2003 Bonds, respectively, on March 1, 2010. Pursuant to the terms of the Series 2003 A, B, and C Indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiencies in the Series of 2003 Debt Service Accounts. The Series 2003 A, B, and C Indenture and the City Bond Guaranty provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series 2003 A, B, and C Obligations, then the Trustee is to draw upon the City Bond Guaranty for the monies for debt service. The Trustee so notified the City of the respective deficiencies in the Series of 2003 Debt Service Accounts for the March 1, 2010 debt service payment. However, the City notified the Trustee on February 23, 2010 that the City was not able to transfer funds for the debt service payment due on the Series 2003 A, B, and C Obligations on March 1, 2010. Upon the failure of the City to advance monies as required under the City Bond Guaranty, the Trustee then transferred funds from the 2003 Debt Service Reserve Account of the Debt Service Reserve Fund to the Series of 2003 Debt Service Accounts in amounts sufficient to satisfy the respective deficiencies therein and to enable the Trustee to make the necessary payments of interest on the Series 2003 A, B, and C Obligations on March 1, 2010.

On September 1, 2011, the Authority issued a notice of material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$143,034, and \$607,125 due on the Series A, B, and C of 2003 Bonds, respectively, on September 1, 2011. Pursuant to the terms of the Series 2003 A, B, and C Indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiencies in the Series of 2003 Debt Service Accounts. The Series 2003 A, B, and C Indenture and the City Bond Guaranty provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series 2003 A, B, and C Obligations, then the Trustee is to draw upon the City Bond Guaranty for the monies for debt service. The Trustee so notified the City of the respective deficiencies in the Series of 2003 Debt Service Accounts for the September 1, 2011 debt service payment. However, the City notified the Trustee that the City was not able to transfer funds for the debt service payment due on the Series 2003 A, B, and C Obligations on September 1, 2011. Upon the failure of the City to advance monies as required under the City Bond Guaranty, the Trustee then transferred \$580,868 consisting of all remaining funds on deposit in the 2003 Debt Service Reserve Account of the Debt Service Reserve Fund to the Series of 2003 Debt Service Accounts. In accordance with the Series 2003 A, B, and C Indenture, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the Series of 2003 Debt Service Accounts required to make the September 1, 2011 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$816,551 to the Trustee under the bond insurance policy, which amount, together with the funds transferred from the 2003 Debt Service Reserve Account of the Debt Service Reserve Fund, was sufficient to pay the scheduled debt service payment on September 1, 2011.

On March 1, 2012, the Authority issued a material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$147,572, and \$607,125 due on the Series A, B, and C of 2003 Bonds, respectively, on March 1, 2012. Pursuant to the terms of the Series 2003 A, B, and C Indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiencies in the Series of 2003 Debt Service Accounts. The Series 2003 A, B, and C Indenture and the City Bond Guaranty provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series 2003 A, B, and C Obligations, then the Trustee is to draw upon the City Bond Guaranty for the monies for debt service. Service Reserve Fund to the Series of 2003 Debt Service Accounts. In accordance with the Series 2003 A, B, and C Indenture, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the Series of 2003 Debt Service Accounts required to make the March 1, 2012 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$1,401,950 to the Trustee under the bond insurance policy, which amount, together with the funds transferred from the 2003 Debt Service Reserve Account of the Debt Service Reserve Fund, was sufficient to pay the scheduled debt service payment on March 1, 2012.

On September 10, 2012, the Authority issued a notice of material event with respect to the Authority's Series A, B, and C Bonds of 2003. The Series of 2003 Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$647,262, \$147,502, and \$607,125 due on the Series A, B, and C of 2003 Bonds, respectively, on September 1, 2012. Pursuant to the terms of the Series 2003 A, B, and C Indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiencies in the Series of 2003 Debt Service Accounts. The Series 2003 A, B, and C Indenture and the City Bond Guaranty provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series 2003 A, B, and C Obligations, then the Trustee is to draw upon the City Bond Guaranty for the monies for debt service. The Trustee so notified the City of the respective deficiencies in the Series of 2003 Debt Service Accounts for the September 1, 2012 debt service payment. However, the City notified the Trustee that the City was not able to transfer funds for the debt service payment due on the Series 2003 A, B, and C Obligations on September 1, 2012. There being no funds on deposit in the Series of 2003 Debt Service Reserve Account of the Debt Service Reserve Fund, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the Series of 2003 Debt Service Accounts required to make the September 1, 2012 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$1,401,889 to the Trustee under the bond insurance policy, which amount was sufficient to pay the scheduled debt service payment on September 1, 2012.

### *Series D-1, D-2, E, and F Bonds of 2003*

On June 29, July 16 and July 22, 2009, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled interest payments in the amount of \$1,062,450, \$1,625,000, \$353,030, and \$344,895 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on June 1, 2009. The amount of \$200,982, \$34, \$3, and \$72,636 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$861,468, \$1,624,966, \$353,027, and \$272,259, respectively. the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to transfer funds for the debt service payment due on the Series D-1, D-2, E, and F Bonds on June 1, 2009. Upon the failure of the City to advance monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$861,468, \$1,624,966, \$353,027, and \$272,259, respectively, from the 2003D, E and F Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in May 2009 in accordance with the trust indenture and transferred such amount to the Retrofit Debt Service Account to address the deficiency in such account for the payment of interest on the Series D-1, D-2, E, and F Bonds on June 1, 2009.

On March 8 and March 9, 2010, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$1,062,450, \$1,625,000, \$1,743,030, and \$1,684,895 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on December 1, 2009. There were no funds on deposit in the 2003 Retrofit Debt Services Accounts, resulting in a deficiency of \$1,062,450, \$1,625,000, \$1,743,030, and \$1,684,895, respectively. The trust indenture and the City Bond Guaranty Agreement provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was only able to transfer \$127,613, \$195,181, \$209,358, and \$202,376, respectively, for the Series D-1, D-2, E, and F Bonds of 2003, which amount represented a portion of the funds required for the debt service payment due on the Series D-1, D-2, E, and F Bonds on December 1, 2009. Upon the failure of the City to advance sufficient monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$2,364,656, \$746,468, and \$1,482,519, respectively, from the 2003D, E and F Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on December 1, 2009. However, after transferring funds from the 2003 E Bonds Subaccount of the Retrofit Debt Service Reserve Account, the 2003E Bonds Subaccount of the Retrofit Debt Service Account was still deficient in the amount of \$787,204. Under the terms of the Indenture and the County Guaranty Agreement, dated as of December 1, 2003 (County Guaranty Agreement), among the County of Dauphin (County), the Authority and

the Trustee, the County, as guarantor, was required to fund any deficiency in the 2003E Bonds Subaccount of the Retrofit Debt Service Account after deposits therein from the City under the City Bond Guaranty Agreement and from the 2003E Bonds Subaccount of the Retrofit Debt Service Reserve Account. Pursuant to the terms of the Indenture and the County Bond Guaranty Agreement, the Trustee notified the Authority and the County of such deficiency in the 2003 E Bonds Subaccount of the Retrofit Debt Service Account. The County, as guarantor, in accordance with the County Guaranty Agreement, transferred funds in the amount of \$787,204 to the Trustee for deposit into the 2003E Bonds Subaccount of the Retrofit Debt Service Account in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment due on the Series E Bonds on December 1, 2009. In addition, the Series F Bonds Subaccount of the Retrofit Debt Service Reserve Account was deficient in the amount of \$630,474, which required the Authority to draw on its debt service reserve fund surety policy.

On June 1, 2010, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$1,062,450, \$1,625,000, \$322,103, and \$314,745 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on June 1, 2010. The amount of \$2, \$3, \$0, and \$2 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$1,062,448, \$1,624,997, \$322,103, and \$314,743, respectively. The trust indenture and the City Bond Guaranty Agreement provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to provide any funds under the City Bond Guaranty in order to make the debt service payment due on the Series D-1, D-2, E, and F Bonds on June 1, 2010. Upon the failure of the City to advance sufficient monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$2,687,445, \$322,103, and \$314,743, respectively, from the 2003D, E and F Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on June 1, 2010. The funds on deposit in the 2003E Bonds Subaccount of the Retrofit Debt Service Reserve Account were derived from monthly deposits required to be made by the County under the terms of the County Guaranty Agreement.

On December 10, 2010, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F

Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$1,062,450, \$1,625,000, \$1,777,103, and \$1,714,745 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on December 1, 2010. The amount of \$161,436, \$246,913, \$270,025, and \$260,550 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$901,014, \$1,378,087, \$1,507,078, and \$1,454,195, respectively. The trust indenture and the City Bond Guaranty Agreement provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to provide any funds under the City Bond Guaranty in order to make the debt service payment due on the Series D-1, D-2, E, and F Bonds on December 1, 2010. Upon the failure of the City to advance sufficient monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$2,279,101, \$1,507,078, and \$54,784, respectively, from the 2003D, E, and F Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on December 1, 2010. However, withdraw from the 2003 F Bonds Subaccount of the Retrofit Debt Service Reserve account was not sufficient to make the December 1, 2010 payment, in the amount of \$1,399,411. The Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account required to make the December 1, 2010 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$1,399,411 to the Trustee under the bond insurance policy, which amount, together with funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account, was sufficient to pay the scheduled debt service payment on December 1, 2010. The funds on deposit in the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account were derived from monthly deposits required to be made by the County under the terms of the County Guaranty Agreement.

On June 2, 2011, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$826,350, \$1,625,000, \$289,729, and \$283,245 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on June 1, 2011. The amount of \$339,151, \$502,022, \$89,508, and \$87,505 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$487,199, \$1,122,978, \$200,221, and \$195,740, respectively. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to provide any funds under the City Bond Guaranty in order to make the debt service payment due on the Series D-1, D-2, E, and F Bonds on June 1, 2011. Upon the failure of the City to advance sufficient monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$1,610,177 and \$200,221, respectively, from the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on June 1, 2011. However, the Series F Bonds Subaccount of the Retrofit Debt Service Reserve Account did not have any funds on deposit therein. In accordance with the Indenture, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account required to make the June 1, 2011 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$195,740 to the Trustee under the bond insurance policy, which amount, together with funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account, was sufficient to pay the scheduled debt service payment on June 1, 2011. The funds on deposit in the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account were derived from monthly deposits required to be made by the County under the terms of the County Guaranty Agreement.

On December 2, 2011, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$826,350, \$1,625,000, \$1,809,729, and \$1,748,245 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on December 1, 2011. The amount of \$523,217, \$1,028,596, \$1,145,495, and \$1,106,575 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$303,133, \$569,404, \$664,234, and \$641,670, respectively. The trust indenture and the City Bond Guaranty Agreement provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to provide any funds under the City Bond Guaranty in order to make the debt service payment due on the Series D-1, D-2, E, and F Bonds on December 1, 2011. Guaranty Agreement, the Trustee then withdrew \$899,537 and \$664,234, respectively, from the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on December 1, 2011. However, the Series F Bonds Subaccount of the Retrofit Debt Service Reserve Account did not have any funds on deposit therein. In accordance with the Indenture, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account required to make the December 1, 2011 payment and requested that such shortfall be paid under the bond insurance policy. The Bond Insurer paid the amount \$664,670 to the Trustee under the bond insurance policy, which amount, together with funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account, was sufficient to pay the scheduled debt service payment on December 1, 2011. The funds on deposit in the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account were derived from monthly deposits required to be made by the County under the terms of the County Guaranty Agreement.

On June 4, 2012, the Authority issued notices of material events with respect to the Authority's Series D-1, D-2, E, and F Bonds of 2003. The Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts did not have sufficient funds to pay the scheduled debt service payments in the amount of \$826,350, \$1,625,000, \$255,909, and \$250,283 due on the Series D-1, D-2, E, and F of 2003 Bonds, respectively, on June 1, 2012. The amount of \$4, \$28, \$8, and \$8 was on deposit with the Trustee with respect to the Series D-1, D-2, E, and F Bonds of 2003, respectively, resulting in a deficiency of \$826,346, \$1,624,972, \$255,901, and \$250,275, respectively. The trust indenture and the City Bond Guaranty Agreement provide that if there are insufficient revenues available from the operation of the Authority's Resource Recovery Facility to pay debt service on the Series D-1, D-2, E, and F Bonds, then the Trustee is to draw upon the City Bond Guaranty as such term is defined in the City Bond Guaranty Agreement for the monies for debt service. Pursuant to terms of the trust indenture and the City Bond Guaranty, the Trustee notified the Authority and the City of such deficiency in the Series of 2003 D-1, D-2, E, and F Retrofit Debt Service Accounts. However, the City notified the Trustee that the City was not able to provide any funds under the City Bond Guaranty in order to make the debt service payment due on the Series D-1, D-2, E, and F Bonds on June 1, 2012. Upon the failure of the City to advance sufficient monies as required under the City Bond Guaranty Agreement, the Trustee then withdrew \$1,707,606 and \$255,901, respectively, from the 2003D and E Bonds Subaccount of the Retrofit Debt Service Reserve Account of the Debt Service Reserve Fund in order to satisfy the remaining deficiency therein and to enable the Trustee to make the necessary debt service payment on June 1, 2012. However, the Series F Bonds Subaccount of the Retrofit Debt Service Reserve Account did not have any funds on deposit therein. In accordance with the Indenture, the Trustee then notified the Bond Insurer of the deficiency of funds on deposit in the 2003F Bonds Subaccount of the Retrofit Debt Service Account required to make the June 1, 2012 payment and requested that such shortfall be paid under the bond insurance policy.

### *Series C and D Notes of 2007*

On August 23, 2010, the Authority issued a notice of material event with respect to the Authority's Series C and D Notes of 2007. The Trustee was required to notify the City and the County by August 1, 2010 of the amounts on deposit in the Series C Debt Service Account and the Series D Debt Service Account and the amount of the Stated Value at Maturity of the Series C Notes and the Series D Notes. In the event that the respective Stated Value at Maturity of the Series C Notes or the Series D Notes exceeded the respective amounts on deposit in the Series C Debt Service Account or the Series D Debt Service Account, the Trustee was required to instruct the City to transfer to the Trustee on or before August 15, 2010 amounts sufficient to cure such deficiency or deficiencies.

On July 30, 2010, the Trustee provided notice to the City and the County indicating that there was \$0 on deposit in the Series C Debt Service Account and the Series D Debt Service Account and further instructing the City to transfer \$23,920,000 to the Series C Debt Service Account and \$10,764,999 to the Series D Debt Service Account by August 15, 2010 in order to cure the deficiency. Upon receipt of such notice by the Trustee, the City agreed to transfer the required amounts to the Series C Debt Service Account or the Series D Debt Service Account by August 15, 2010.

On August 13, 2010, the City notified the Trustee that its current financial condition precluded the City from making the required transfers under the Guaranty Agreement. Upon such failure by the City under the Guaranty Agreement, the Trustee was required under the Indenture to notify the County by August 20, 2010 of the amounts on deposit in the Series C Debt Service Account, the Series D Debt Service Account, the Series C City Guaranty Subaccount and the Series D City Guaranty Subaccount. In the event that the Stated Value at Maturity of the Series C Notes or the Series D Notes exceeded the aggregate amounts on deposit in the corresponding aforementioned Accounts and Subaccounts, the Trustee was required to instruct the County to transfer to the Trustee on or before December 1, 2010 amounts to cure such deficiency or deficiencies. In accordance with the provisions of the County Guaranty Agreement, dated as of December 15, 2007 (County Guaranty Agreement), among the County, the Authority and the Trustee, the County agreed to transfer the required amounts to the Series C Debt Service Account and the Series D Debt Service Account by December 1, 2010.

On August 20, 2010, the Trustee provided notice to the County indicating that there was a deficiency in the Series C Debt Service Account and the Series C City Guaranty Subaccount in the amount of \$23,920,000 and a deficiency in the Series D Debt Service Account and the Series D City Guaranty Subaccount in the amount of \$10,765,000 and requesting a transfer of funds sufficient to cure such deficiencies by December 1, 2010. Upon receipt of such notice by the Trustee, the County pursuant to the County Guaranty Agreement agreed to transfer the required amounts to the Series C Debt Service Account and the Series D Debt Service Account by December 1, 2010.

On December 17, 2010, the Authority issued a notice of material event with respect to the Authority's Series C and D Notes of 2007. The Series C Debt Service Account and Series D Debt Service Account did not have sufficient funds on deposit on November 30, 2010 to pay the Stated Value at Maturity of the Series C Notes or the Series D Notes on December 15, 2010. In accordance with the provisions of the Indenture and the County Guaranty Agreement, dated as of December 15, 2007 (County Guaranty Agreement), among the County, the Authority and the Trustee, the County transferred the required amounts to the Series C Debt Service Account and the Series D Debt Service Account on or about December 1, 2010. The Trustee applied such amounts deposited by the County to the Series C Debt Service Account and the Series D Debt Service Account to pay the Stated Value at Maturity of the Series C Notes and the Series D Notes on December 15, 2010. The Series C Notes and the Series D Notes are no longer outstanding.

On October 28, 2009, the City received notice that Moody's downgraded its rating on its outstanding obligations to Ba2 from Baa2. On February 11, 2010, Moody's downgraded its rating on the City's general obligation bonds again to a rating of B2, with a negative outlook. In a notice of material event, filed by the City on March 29, 2011, the City stated its October 2009 downgrade and that it has not provided an annual report for the fiscal year ended December 31, 2009. Subsequently, through its notice of material event filed on July 13, 2012, the City stated that it had not filed its comprehensive annual financial report for the fiscal years ended December 31, 2009, 2010, and 2011. However, the City filed its 2009 comprehensive annual financial report on August 6, 2012.

Additionally, the County made payments in the amount of \$284,195 and \$491,458 on June 1, 2009 under the County Guaranty with respect to the Series D-1 and D-2 Cap agreement and the Series D-1 and D-2 Swap agreement, respectively. The County also made payments in the amount of \$250,430 and \$469,833 on November 27, 2009 under the County Guaranty with respect to the Series D-1 and D-2 Cap agreement and the Series D-1 and D-2 Swap agreement, respectively. The City also made a payment in the amount of \$98,322 on December 1, 2009 under the City Guaranty with respect to the Series D-1 and D-2 Swap agreement. On June 1, 2010, December 1, 2010, and June 1, 2011, the County made

payments in the amount of \$804,152, \$675,762, and \$541,090, respectively, under the Swap/Cap agreements. Beginning in October 2010, the County began making monthly deposits into the Series D, E and F Debt Service Reserve Funds. These deposits have been used to make subsequent Swap/Cap payments.

The City made payments in the amount of \$637,500 during July 2009, October 2009, and January 2010 under the guaranty with respect to construction loan from Covanta. There have been no subsequent payments to Covanta with respect to the construction loan.

In June 2010, the Authority entered into a Consent Order and Agreement (COA) with the Pennsylvania Department of Environmental Protection (DEP) relative to the Resource Recovery Facility for violations of air quality-related emissions limits as of January 2007. In lieu of paying the total fine for the violations, the COA established the following:

- Civil penalty of \$125,000 due at execution of COA.
- Additional civil penalty of \$100,000 due no later than December 31, 2011, December 31, 2012, and December 31, 2013.

In lieu of paying civil penalties for the period of 2011 – 2013, the Authority may perform certain projects for the benefit of the residents of the City and/or the Borough of Steelton. In order for the funds expended on the projects to qualify as Project Credits under the COA, the Projects must be certain projects and meet certain conditions:

- Asthma Education Program for Community School Children – implement the American Lung Association’s Open Airways for Schools Program. The Authority will provide funds to the Project Administrator (Hamilton Health Center).
- South Allison Hill Weed and Seed Revitalization Plan – bulk trash cleanup, cameras to monitor illegal dumping, and vacant lot cleanup. The Authority will participate by providing funds to Project Administrator (YMCA Weed and Seed).

For payments to qualify for the Project Credits, the Authority must:

- Receive written approval from the DEP for the draft contract between the Authority and the Project Administrators.
- Execute the DEP approved contract with the Project Administrator.
- Provide DEP with copy of executed contract with first quarterly report.
- Provide DEP with quarterly reports (within 30 days of the end of the quarter).

The \$100,000 penalty for period of 2011 – 2013 will not be due for each year if the Authority demonstrates at least \$50,000 of Project Credits pursuant to the Final Completion Reports submitted during each calendar year. If the Authority demonstrates any Project Credits

pursuant to the Final Completion Reports submitted during the 2010 calendar year, the 2010 Project Credits shall be applied as Project Credits to the 2011 calendar year. If the Authority demonstrates more than \$50,000 of Project Credits pursuant to Final Completion Reports submitted during 2011 and 2012 calendar years, the Project Credits exceeding \$50,000 in any given year may be applied as Project Credits in the next calendar year.

The County is seeking \$6,743,197 as of October 26, 2010 for reimbursement of payments it made as guarantor of Swap Payments in June and December of 2009, June 2010, and payments under Retrofit Indentures, Series D and E of 2003. The County also demands interest and costs. On February 15, 2011, the County is seeking \$675,762 for reimbursement of payments made as guarantor of Swap Payments made in December 2010. The pleadings are closed and the case has been inactive. No trial date has been set. The Authority has defended by asserting that the County has frustrated the Authority's ability to charge rates that would have allowed it to meet its debt service. The Authority has also raised that the County has not been diligent in enforcing flow control ordinance, this costing the Authority tipping fees, that otherwise, would have been recovered. The Authority will defend itself vigorously. The Authority believes that it has a reasonable and valid basis for its position. The loss may be handled through payment via a plan under Act 47 (Municipalities Financial Recovery Act), as amended.

The Trustees of bondholders and bond insurer have made a claim against the Authority to recover amounts the Authority has not paid by under its various debt service obligations. Plaintiffs further seek all costs and attorneys fees associated with the Authority default and that these costs and fees be a "first draw" on Resource Recovery Facility revenues. The Lower Court granted the request for a receiver which the Authority appealed and which is pending before the Commonwealth Court. Plaintiffs may seek payment of its costs and fees if a receiver is appointed. The portion of the claim requesting monetary relief has been inactive and no trial date has been set. The Authority has responded to the claim for monetary relief in two ways. First, for the claims of the bond Trustees, the Authority has defended that any amounts paid by the County cannot be recovered, and that the only rights to reimbursement are the County's under its Reimbursement Agreement. There does not appear to be a dispute that the bond insurer paid under its bond insurance policy, thus there is a likelihood that the insurer's claim for reimbursement will be successful. The potential loss is in excess of \$9 million. The Authority believes there is a reasonable and valid basis for its position as to the Trustee/Plaintiffs' claim for payment. The Authority believes Plaintiffs' claims for costs and fees to be excessive and may challenge certain portions of the claim for costs. The amount due may be handled through payment via a plan under Act 47, as amended.

Unless resolved through a plan under Act 47, it is likely that for each payment the County or the bond insurer make as guarantor and insurer, respectively, they will make a claim against the Authority for the amounts paid as well as costs and attorneys fees. As of November 5,

2012, the County and bond insurer have made payments to cover the Authority's debt service of \$48,737,813 and \$12,040,646, respectively.

The Authority entered into an Administrative Services and Interim Operation and Maintenance Agreement (Interim Agreement) with Covanta Energy, Inc. (Covanta) for operation and management of the Resource Recovery Facility effective January 2, 2007 through March 31, 2007. During the interim agreement period, Covanta provided all day-to-day administrative services, provided a Construction Plan and coordinated all construction, start-up performance testing, operation and maintenance services for the Facility. The Authority deposited \$100,000 with Covanta, which was used to pay for the first arising reimbursable expenses under the Agreement. On the 15<sup>th</sup> and 30<sup>th</sup> day of each month, the Authority paid Covanta 1/24<sup>th</sup> of the annual amount set forth in the estimated operating budget. Each month, Covanta reconciled the actual reimburseable expenses to the payments made by the Authority. For all reimburseable expenses incurred during the month in excess of such payments, Covanta submitted an invoice for such excess by the 10<sup>th</sup> day of the following month, which was to be paid by the Authority within 30 days. Reimbursable expenses are defined in the agreement. The Authority also paid an administrative service charge to Covanta in the amount of 11% of reimbursable expenses. The Interim Agreement was extended, on a month-to-month basis, through January 31, 2008.

The Authority then entered into a Management and Professional Services Agreement with Covanta to provide construction and operations management services for a period of ten years and the Retrofit Completion work. The terms and conditions of this agreement are substantially the same as the Interim Agreement, except that the management fee is \$875,000 per month, escalated annually each calendar year.

The Authority had contractual relations with several vendors who completed the Resource Recovery Facility. These vendors were to be paid through a draw down from a construction advance provided by Covanta. Covanta failed to advance funds to pay these vendors when the Authority failed to reimburse Covanta on the advance, and the City failed under its guaranty of the Authority reimbursement. The Authority has been unable to pay the vendors since it does not believe the vendors costs are properly termed "operating expenses" and thus cannot be paid prior to debt service. The Authority has no defense to the claims as the work was approved by Covanta, the Authority, and the Authority's consulting engineer on the job. All have, at some point, demanded payment. One vendor has initiated a lawsuit. The Authority as stipulated to judgments of three vendors in the principal amount of \$1,021,985 plus interest and court costs. Only one of the three vendor has sought payment through mandamus at this point. This vendor seeks an order that the Authority pay immediately. While not contesting the work or the right of each vendor to be paid, the Authority believes the vendors should be paid by Covanta through draw downs from the Covanta construction advance. Furthermore, the Authority recognizes the rights of the bond Trustees which hold security interests in the Resource Recovery Facility revenues and has resisted paying the

---

vendors ahead of debt service obligations. The Authority has involved the Trustees in discussions and litigation at this point. The Authority seeks to have the Court consider the equities and all interested parties and set forth a plan to get all vendors paid the amounts due. The Authority believes the law supports such an outcome. No trial date has been set on the mandamus action. The Authority has a reasonable and valid basis for the positions it has taken. The principal amount due is accrued on the Authority's December 31, 2010 financial statements and may be handled through payment via a plan under Act 47, as amended.

There is one pending case in which a subcontractor of Barlow, unable to collect from Barlow for work performed at the Resource Recovery Facility, has sued the Authority, in the amount of \$529,550 plus interest, costs, etc. The Authority has no contractual privity with this subcontractor. The Authority does not believe it is liable under the law and is defending this case vigorously. The Authority believes it has a reasonable position on the cross-motions, which may result in dismissal of the case. As such, no liability for this case is reported in the Authority's December 31, 2010 financial statements.

During the years ended December 31, 2011 and 2012, the Authority conducted a forensic audit of the debt financings related to the Resource Recovery Facility. The Authority is evaluating the results of the forensic audit and any related outcome is subject to significant uncertainty.

When the Authority purchased the Resource Recovery Facility from the City in 1993, the Authority paid the City approximately \$30 million in consideration. The Agreement of Sale allows for a maximum purchase price of \$55 million, with the final purchase price to be based on the financial capability of the Resource Recovery Facility. The balance of the purchase price is to be paid only after the Authority completes financing of the improvements to the Facility described above, in such amount as is set forth in a report of the Authority's consulting engineer certifying that facility revenues upon completion of such improvements are sufficient to pay all operating expenses, debt service, and any other facility funding requirements. There were no additional payments required during the year ended December 31, 2010.

### Water Fund

The Water Facility's 2010 budget was approved by the Board in November 2010. As required under the trust indenture, the budget is required to be approved 30 days prior to the end of the calendar year and provided to the bond insurer within 120 days of year-end. Finally, management has not instituted a system to calculate the rate covenant requirement.

Under the continuing disclosure undertaking, the Authority has covenanted to file its secondary market disclosures within 270 days of the end of their fiscal year. Additionally, the various trust indentures require the Authority to submit its audited financial statements to

the Trustee within 180 days. On September 29, 2011 and October 4, 2012, the Authority issued a notice of material event with respect to the failure of the Authority to issue financial statements for the years ended December 31, 2010 and 2011, stating that neither were completed by the required dates.

On January 18, 2011, the Authority issued a notice of material event with respect to the Moody's Investor Service (Moody's) downgrade to Ba1 from A1 of the Authority's 2008 Water Revenue Bonds. In addition, Moody's has removed the Authority's 2008 Water Revenue Bonds from watchlist and a negative outlook has been assigned. On November 15, 2011, Moody's downgraded to Ba3 with negative outlook from Ba1 the rating on the Authority's 2008 Water Revenue Bonds and then withdrew the rating. Accordingly, the Authority's 2008 Water Revenue Bonds are no longer rated by Moody's.

On June 7, 2012, the Authority issued a notice of expiration of liquidity facility without replacement. The standby bond purchase agreement (liquidity facility), dated July 18, 2002, was due to expire on July 18, 2012. The liquidity facility provides liquidity for the Authority's Variable Rate Water Revenue Refunding Bonds, Series B of 2002 and the Authority's Variable Rate Water Revenue Refunding Bonds, Series C of 2002. The Authority was notified that the liquidity facility would not be extended beyond the expiration date. As a result, the Authority issued a request for proposal dated April 12, 2012 seeking a replacement facility or a direct loan to replace the liquidity facility. Responses to the request for proposal were due on or before May 16, 2012. The Authority received no responses to this request for proposal. As a result, the 2002 Bonds are expected to be subject to mandatory tender for purchase on the fifth business day preceding the expiration date or July 11, 2012. It is expected that notice of such mandatory tender will be given in accordance with terms of the Ninth Supplemental Trust Indenture dated as of July 1, 2002 between the Authority and the Trustee (Ninth Supplement) under which the 2002 Bonds were issued, and that the 2002 Bonds so tendered will be purchased with moneys advanced under the Liquidity Facility. It is not expected that the 2002 Bonds will be remarketed following such tender but rather it is expected that the 2002 Bonds will be held by the liquidity provider and will be subject to special mandatory sinking fund redemption on a level principal basis beginning on January 15, 2013 and on each January 15 and July 15 thereafter until July 15, 2017 in the case of the 2002B Bonds and until July 15, 2019 in the case of the 2002C Bonds. Subsequently, the 2002 Bonds were tendered and are held by the liquidity provider.

Under the 2008 Water Revenue Bond trust indenture, the Authority is required to maintain certain minimum balances in the 2008 Water Debt Service Reserve Fund. At December 31, 2010, the Authority's balance in the 2008 Water Debt Service Reserve Fund was \$6,554,589 and the required balance was \$6,942,000. The trust indenture states that if the balance in the Water operating reserve fund becomes deficient, the Authority is to restore the balance with twelve substantially equal monthly installments. The Water Debt Service Reserve Fund was replenished through increases in the fair value of investments.

These transfers did not occur in November or December of 2010. Additional transfers were required in January 2011 to provide sufficient funds to pay the January 15, 2011 interest payment.

### Sewer Fund

The 2010 Sewer Fund Collection System and Conveyance System's consulting engineers' reports, which were due, per the trust indenture, by November 1 of each year, were not received by the Authority until December 2010 and November 2010, respectively.

The various trust indentures require the Authority to submit its audited financial statements to the Trustee within 180 days. The Authority's financial statements for the years ended December 31, 2010 and 2011 were not completed by the required dates.

### Other

The Authority is involved in several lawsuits in the normal course of business. It is the opinion of management that any liabilities resulting from these proceedings would not materially affect the financial position of the Authority at December 31, 2010.

The Authority has guaranteed a line-of-credit on behalf of the National Civil War Museum. The maximum amount available under the line-of-credit is \$500,000. As required by the

agreement, the Authority has placed \$250,000 in a separate account and this amount is included on the balance sheet as restricted cash and cash equivalents.

The Authority has entered into various construction contracts related to the construction of the various facilities. The outstanding commitment under these contracts at December 31, 2010, excluding amounts in accounts payable, was approximately \$3.7 million.

### 13. SEWER PROJECTS

On August 19, 2009, the Authority received the H2O Pennsylvania Act Grant in the sum of \$5,520,000 from the Commonwealth Financing Authority for construction and improvements to the waste water treatment plant located in Swatara Township. In accordance with the grant agreement, the project was completed prior to June 30, 2012. To receive payments under this grant, the Authority must submit requests for payment based on the estimate of expenditures. Total costs draw down under the grant were \$3,354,275 at December 31, 2010.

On December 23, 2009, the Authority entered into a loan agreement with the Pennsylvania Infrastructure Investment Authority (Penn Vest) in an amount not to exceed \$1,880,000 for capital improvements of the wastewater treatment facility. The loan is guaranteed by the City. As of December 31, 2010, \$1,319,653 has been drawn down on the loan.

### 14. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the Authority carries commercial insurance. The Authority also requires the City to carry commercial insurance as part of the management agreement for the Water System. During the last three years, insurance settlements did not exceed insurance coverage.

### 15. LIQUIDITY

The Authority's Resource Recovery Facility, as required by the Environmental Protection Agency, was temporarily closed so that the Authority could undertake a modernization program. A significant financing was completed in December 2003 to fund the costs of the project. The contractor defaulted and was terminated as of December 31, 2006. In 2007, Covanta was retained to complete the project and take over management responsibilities. The Resource Recovery Segment has experienced significant operating losses, has an accumulated deficit of approximately \$173 million at December 31, 2010, is in violation of certain covenants under the trust indentures, and payment defaults have occurred. The

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

Authority has issued multiple notices of material events with respect to certain bonds of the Resource Recovery Facility. Many of the above items were due to delays and significant cost overruns.

In the fall of 2007, the Authority developed a recovery plan for the Resource Recovery Facility that required completion of construction of the facilities to bring the three burners on line and up to operating efficiently. The Authority engaged Covanta to manage and operate the Facility and to provide professional services. Included in Covanta's Agreement with the Authority is a construction management agreement to oversee the completion of construction. The recovery plan also included increased disposal fees and tipping fees and infusion of capital for construction and working capital. The Authority's recovery plan was presented and approved by the City and County in November 2007.

The completion of the retrofit project and correction of design flaws caused by the original contractor were funded by a loan from Covanta to pay for such work. Payment of the debt service on the Covanta loan was subordinate in payment to the Authority's prior debt relating to the Resource Recovery Facility. Repayment of the debt service on the Covanta loan began prior to completion of the construction project. The Authority's revenues were insufficient to make payment on the loan and the City guarantee was called upon. The City made payments to Covanta until their financial situation precluded such payments in April 2010. As of October 2012, \$8,392,968 remains unpaid to Covanta. Additionally, the Authority owes approximately \$1.5 million to vendors on the retrofit completion project due to Covanta failing to release advance funds once the Authority and City were unable to make reimbursement payments.

The Authority also obtained funding for a working capital loan to cover costs and debt service during the expected time period for completion of the retrofit project by the issuance of capital appreciation notes. Such notes for the working capital loan were issued in December of 2007 and matured on December of 2010. Revenues from the Resource Recovery Facility were not pledged as security for the working capital loan. The working capital loan was guaranteed by the City and the County on the assumption that the working capital loan would be refinanced into long term debt prior to or, at the latest, by December 2010. At the time of closing on the working capital loan, it was anticipated that the City and the County would guarantee any long term debt issued to take out the working capital loan. The Authority, City and County failed to reach agreement on the refinancing and as a result, the County alone refinanced the working capital loan.

Since 2008, the Resource Recovery Facility has been able to cover operating expenses but unable to generate sufficient revenue to cover debt service and amounts due under the interest rate cap. As such, the Authority has drawn on debt service reserves, called upon guarantors, and insurance policies in order to make sure that bondholders were paid. Fees associated with the guarantor and insurance agreements continue to accrue.

## NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2010

---

The Authority continues to pursue revenue enhancing and expense reducing activities, but will continue to rely upon reserves, guarantors and insurance until a coordinated solution is accomplished. To this end, the Authority is participating in the City's Act 47 process that seeks to provide a plan to eliminate the financial burden of the Resource Recovery Facility on the revenues, guarantors and insurance providers.

The Financially Distressed Municipalities Act, also known as Act 47, empowers the Pennsylvania Department of Community and Economic Development (DCED) to declare certain municipalities as financially distressed. On October 1, 2010, Mayor Linda D. Thompson filed a request asking for the City to be designated a financially distressed municipality. DCED investigated the financial affairs of the City and, on December 15, 2010, following public hearings on the City's request, DCED issued a determination of municipal financial distress for the City.

A recovery plan (Coordinator's Act 47 Recovery Plan) was developed. However, on July 19, 2011, a majority of the Harrisburg City Council rejected the Coordinator's Act 47 Recovery Plan. Following the City Council's rejection of the Act 47 Recovery Plan, Mayor Thompson was tasked with developing and filing an alternate Recovery Plan pursuant the provisions of Act 47. The Mayor filed a Recovery Plan on August 22, 2011 and on August 31, 2011, a majority of Harrisburg City Council rejected Mayor Thompson's Recovery Plan and again rejected a modified plan on September 13, 2011.

On September 20, 2011, Governor Tom Corbett signed into law Senate Bill 1151, amending Act 47 and providing for a Declaration of Fiscal Emergency in circumstances in which a financially distressed city of the third class fails to adopt a financial recovery plan. Additionally, the law provides for the appointment and confirmation of a receiver if the distressed city fails to enact a consent agreement to adopt and implement a recovery plan.

As a result of the fiscal circumstances existing in the City, Governor Corbett declared a fiscal emergency on October 24, 2011. As part of the Emergency Declaration, Governor Corbett directed the Secretary of DCED, C. Alan Walker, to develop an Emergency Action Plan to ensure all vital and necessary services are maintained in the City until a fiscal recovery plan is enacted.

On November 18, 2011, a Receiver was appointed, who is tasked with developing and submitting a fiscal recovery plan to the Commonwealth Court, DCED Secretary, City Council, and the Mayor.

The Receiver's recovery plan was submitted, the Commonwealth Court held a hearing and the Court confirmed the Receiver's Recovery Plan.

At this time, the Office of the Receiver is pursuing implementation of the Receiver's Recovery Plan and actively negotiating resolution of the City's fiscal crisis and seeking resolution with creditors of the County, City and the Authority relating to the outstanding Resource Recovery Facility debt.

### 16. SUBSEQUENT EVENTS

Subsequent events with respect to material event notices and debt related items are included in the respective notes.

In March 2011, the Authority entered into a professional services agreement with respect to the Authority's sewer facility, for technical services, in an amount not to exceed \$2.871 million. The contract includes a provision whereby the Authority will give notice to proceed at each defined phase of the service. In March 2012, the Authority entered into a second professional services agreement with respect to the Authority's sewer facility, for technical services related to Phase 2 design, in the amount of \$937,000.

In August 2011, the Authority entered into an agreement with Covanta to manage all aspects of the air heater project at the Resource Recovery Facility, at an estimated cost of \$1.2 million for both units.

In April 2011, the Authority applied for a PennVest loan, in the amount not to exceed \$5.7 million for the purpose of financing the Authority's water system improvements. As of the date of this report, this loan has not settled.

In March 2012, the Authority entered into an agreement with respect to the Resource Recovery Facility for sitework for the ash disposal landfill interim grading plan project, in an amount not to exceed \$3,798,930.
