

**INTER-OFFICE MEMORANDUM**

**CITY OF HARRISBURG**

August 23, 2011

**TO:** Elected Officials

**FROM:** Daniel C. Miller  
City Controller

**SUBJECT:** 2011 Residency Report

The Harrisburg City Code states that annually in July every employee of the city shall file with the City Controller a certificate stating the employees name and place of residence. Such residence certificate shall be signed under penalty of un-sworn falsification to authorities. The City Controller may also from time to time require proof of the bona fide residence of any employee to determine said employee's eligibility to receive financial compensation from the City.

The 2011 residency certificates were distributed by the Controller's Office on July 29, 2011. A transmittal memo was included along with the certificate requesting each employee return the signed certificate along with two forms of documentation supporting their residency. The certification forms and documentation were due back to the Controller's Office by August 15, 2011.

The Controller's Office distributed 467 residency certificates and received 345 signed certificates back. Approximately 122 employees did not return the certification form, resulting in a compliance rate of 74%.

Of the 345 employees who returned the signed residency certification form, 211 employees indicated they were "grandfathered" out of the residency ordinance by having been hired prior to the effective date of the legislation. This was verified by our office. Two employees received an 'exception' to the legislation by working at Dehart Dam.

The attached reports detail the employee response to the 2011 residency certification. Attachment A lists all employees sorted by their bureau and last name. The report details if the certification form was completed and returned (Y, N), and the type of supporting documentation returned. A legend of the document types is on the following page. Attachment B details those individuals who either did not return the certification form or did not include documentation to support their residency.

We encourage the administration to implement measures to achieve 100% compliance with the reporting of annual residency documentation. The employees listed on Attachment B are required to submit documentation to verify their compliance.

Please feel free to contact the Controller's Office if you have any questions. Thank you.
